

Bootstrap's Navigation Bar

Design a web page as indicated in the snapshot below:

Key Points:

1. Create a div tag for an inverted navigation bar using bootstrap. It should be within the header tag with the class "container" which should contain a div tag for an inverted navigation bar using bootstrap. .
2. Make the navigation bar collapsible by using a 'div' tag.
3. Create an unordered list of links for: 'Home', 'About Us', and 'Contact' which belongs to the bootstrap navigation bar class and make the list anchor value 'Home' should be active.
4. Create another unordered list for 'Login' which should belong to the bootstrap navigation bar aligned to right.
5. Create a bootstrap hover table with the table column headings: No, Bill, Payment Date and Payment status.
 - a. Table contents should be same as given below.

Table Contents:

No	Bill	Payment Date	Payment Status
1	Credit Card	05/07/2018	Pending
3	Internet	05/07/2018	Paid
4	Electricity	03/09/2018	Pending
5	Telephone	05/07/2018	Due

- a. According to the payment status, choose appropriate contextual classes for each row.

Pending status: Indicates a warning that might need attention

Success status: Indicates a successful or positive action

Due status: Indicates a dangerous or potentially negative action

Note:

1. Fill only the specified part of the given template.
2. Refer the given snap shot for more clarifications.
