

Test Your Understanding 1

Refer the below schema, and modify the given query appropriately in order to create the product table.

COLUMN NAME	DATATYPE	SIZE	CONSTRAINT
prod_id	number	4	Primary key
prod_name	varchar2	25	
Prod_expiry_date	date		Not null

PRODUCT.sql

```
1 TABLE product
2 ( prod_id number(4),
3   varchar(25) prod_name,
4   prod_expiry_date (dd/mm/yyyy)
5 ); |
```

PRODUCT.sql

```
1 CREATE TABLE product(
2   prod_id number(4) primary key,
3   prod_name varchar2(25),
4   prod_expiry_date date NOT NULL
5 ); |
```
