

Window Resize

Create a web page which has a function to calculate whenever the window gets resized. When the user resizes the webpage, the count will be increased automatically. Display the total number of times that the user resizes the page.

Refer the Sample Webpage below

Use 2 paragraph tags to display the output:

- First **<p>** tag with id **"resize"**
- For the first paragraph set, the **text** as **"Windows resized n times"** - (n should be a numeric value to represent the no. of times)
- For the second **<p>** tag use id as **"test"** and set the **text** as: **"Try resizing your browser window."**

Include the JQuery Library - <https://code.jquery.com/jquery-1.10.2.js>

```
1 <!DOCTYPE html>
2 <html>
3   <head>
4     <script src="https://code.jquery.com/jquery-1.10.2.js"></script>
5     <script type="text/javascript">
6       $(document).ready(function(){
7         var x = 0;
8         $(window).resize(function(){
9           $("span").text(x += 1);
10        });
11      });
12    </script>
13  </head>
14  <body>
15    <p id="resize">Window resized <span>0</span> times.</p>
16    <p id="test">Try resizing your browser window.</p>
17  </body>
18 </html>
```
