

Student with Minimum mark

Write a query to display list of subject names and minimum mark scored in that subject. Give an alias name as MIN_MARK for minimum mark column. Sort the result based on subject name in descending.

Refer the below schema diagram:

joins8.sql

```
1 select s.subject_name, min(m.value) as MIN_MARK from subject s
2 join mark m using(subject_id)
3 group by s.subject_name
4 order by subject_name desc;
```
