Purge Guest Table Contents - Truncate

The resort management wants to purge all the records from the "Guest "table. Write an SQL statement to purge all the records from the guest table without allowing rollback activity.

Number Varchar(30) varchar(30) state varchar(30) opentime varchar(10) varchar(30) city varchar(20) closetime varchar(10) varchar(30) varchar(15) Number guestID FK,PK guestID varchar(30) FK,PK resortID Number varchar(30) varchar(20) varchar(150) varchar(30) starRating guestid Number FK,PK resortID Number FK.PK cabinID startdate Date Date FK,PK resortID todate Date enddate Date adultCount Number rate Number varchar(10)

RESORT MANAGEMENT SYSTEM

sample.sql

1 TRUNCATE TABLE guest;
