Comments based on Star Rating

Guest wants to display Resort Id, Name and Comments of the resort based on it's star rating.
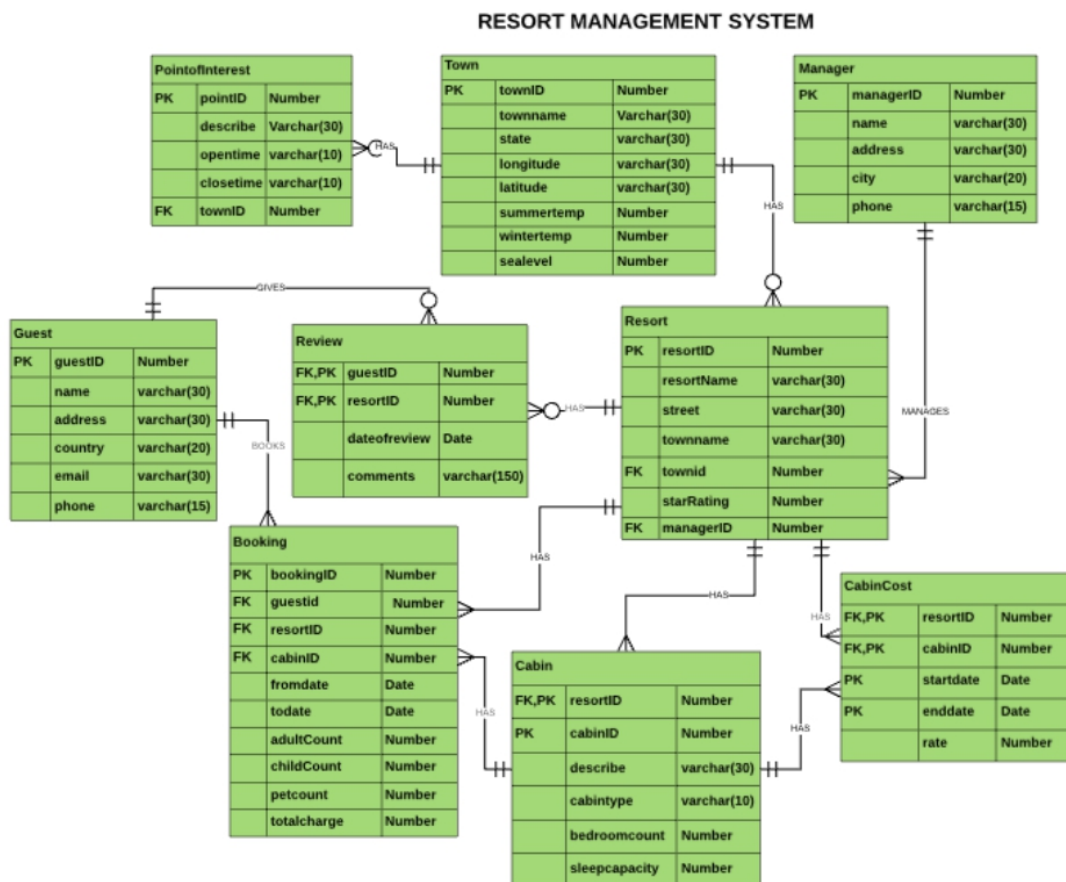

Comments of the resort displays as follows

If rating is between 5.0 to 4.5 then display the comments as 'Excellent Resort'

If rating is between 4.4 to 4.0 then display the comments as 'Very Good Resort'

else display 'Good Resort' . Give alias name to this result as COMMENTS.

Sort the result based on resort id.
